Two paths, one decision — the trade-off is speed versus optionality

Recommended path picks reversibility over fastest delivery.

Build now

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed do eiusmod tempor incididunt.

- Faster time-to-value (≈4 months)
- Higher up-front investment
- Locks in the current process design

Buy and adapt

Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea.

- Lower up-front, higher run-rate
- Faster to pilot, slower to scale
- Preserves optionality through year two

vs
